DOMAINE DU CERBERON

History

This domaine was created by Pierre Jacquemin, barrel maker and vineyard owned thanks to his wedding. In 1830, he created a mustard factory using the verjus from his vineyards. On century later, with the 4th generation running the business, the factory closed and the Jacquemin Mustard was sold to Amora. At this time, the wine domaine was only a few ouvrées in Meursault. In the 1980s, the 6th generation bought vineyards in Pommard and Volnay, and developed the actual domaine.
