DOMAINE LASSARAT ET FILS

History

Born in a family of growers from Vergisson, Roger Lassarat created his own domaine in 1969 with about 3 hectares. With time, the domaine expanded and is now about 16 hectares.

Vines & Wines

Vineyards size
16 hectares

Farming
100% Chardonnay
Use of natural compost instead of fertilizer
Harvest when mature

The top value of the domaine
Top Mâconnais wines that can easily age

The wines

When the harvest arrives in the cuverie, it is immediately put in a pneumatique press that will slowly and nicely extract the juice, respecting it on the mean time.

Then, after a light debourbage lasting one night, the fermentation start in a temperature controlled stainless steel cask for a part and in barrel for another part, always keeping quite cold temperature.
