DOMAINE RÉGIS JOUAN

History

Régis is the 5 generations but his daughter and his son in law, Monsieur Girard is working with him already.

Vines & Wines

Vineyards size
4 hectares

Farming

The vineyard, average 25 years old, is planted on a slope exposed South West with a soil made of clay and limestone.

This exposure and this implementation reveal the mystery of Sancerre: a wine that is at the same time fruity and powerful.

The wines

The domaine Jouan is located in Sury en Vaux, one the village of the Sancerre appellation.

Perfectly located North East of the Cher department, on the left side of the Loire, the domaine Jouan has the perfect Terroir to bring character to its wines.

Wine making

The very precise vinification and rigorous cleavage in temperature controlled stainless steel cask bring Sancerre which are very representative of the appellation.
